

WORLD EMERGENCY CARD

Frequently Asked Questions (FAQs) About WEC

Here are the most common questions and answers that can help healthcare professionals better understand the benefits and functionality of **World Emergency Card (WEC)**:

1. How can I access a patient's information?

Doctors and emergency responders can access a patient's medical data simply by **scanning the QR code** on their **World Emergency Card** using a mobile phone, tablet or PC. The QR code leads to the patient's **secure profile**, where key medical information is displayed.

2. What information does WEC contain?

WEC includes **essential medical data** that can be crucial in urgent situations:

- ✓ Allergies
- ✓ Chronic conditions
- ✓ Current medications
- ✓ Blood type
- ✓ Emergency contacts
- ✓ Primary care physician contact
- ✓ Other relevant medical details (e.g., diabetes information, pregnancy status, etc.)

3. In which languages is the information available?

WEC is a **multilingual solution** – key data is automatically available in major world languages, eliminating **language barriers** between patients and healthcare providers.

4. How is data security ensured?

The security of patient data is our top priority. WEC **utilizes encryption** that meets **healthcare industry standards**, and patients have full control over who can access their medical records.

5. Does the patient need an app or registration?

No! Patients do not need to install anything. They only need a **physical card with a QR code**, which they can attach to their **keys, carry in their wallet, or wear as a wristband**. Doctors only need a **smartphone with internet access** to retrieve their medical data.

6. How can healthcare professionals help expand WEC?

Doctors can recommend **World Emergency Card** to their patients, especially:

- ✓ **Travelers** who may need medical care in a foreign country
- ✓ **Chronically ill patients** who take medication and have specific health conditions
- ✓ **Pregnant women** who need quick access to their medical records

7. What are the costs for patients?

WEC is available in multiple versions – from a € **0,3 per day**.

8. Can WEC be integrated with hospital information systems?

Yes, in certain cases, **WEC can be integrated with electronic health records (EHR)** in hospitals for even faster and more accurate medical data sharing.

9. Can healthcare professionals provide feedback or suggestions for improvement?

Absolutely! **World Emergency Card** highly values the dedication of **doctors and healthcare professionals** and greatly appreciates any **initiative or suggestions for improvement**. We believe that collaboration with medical experts is essential for continuously enhancing our system and making it even more effective in **saving lives and improving patient care**.
